

Field Set-Up

Base distance from home plate to First / Third:

Kindergarten / First Grade:	50'
Second Grade:	55'
Third / Fourth Grade:	60'

Pitching rubber distance from home plate:

Kindergarten / First Grade:	30'
Second Grade:	30'
Third / Fourth Grade:	35'

Pitching circle:

All levels: 8' radius on center of mound

*Second grade - hash marks between 1st and 2nd base and between 2nd and 3rd base.

*Pitcher must have at least one foot in the circle to be considered in position with possession.

ALL - PLEASE READ BELOW!!!

There are 2 jobboxes at every field. One contains ***only the line machine and chalk.*** The other is the field equipment, bases, stakes, tape measure, etc... When spiking in bases, please use the screwdriver and mallet to make a pilot hole before hammering in bases to prevent the stakes from bending.

Please replace all items back into the **proper box** at the end of each game and **LOCK THE JOBOXES!**

The boxes are stocked for the season, including 1 game ball per game in addition to practice balls. **DO NOT GIVE AWAY GAME BALLS.** Those balls become practice balls in future seasons. If you use items from the medical kit that need to be replaced (ice, bandages, etc...) or chalk for the line machine, please let your league coordinator know so that we can restock.

All fields must be raked and dragged at the end of every practice and game. Please make sure all trash is removed from the dugout areas and bleachers when you leave the field.

Thank you all for volunteering your time to our program!
